

Benefits Script for Out of Network Physical Therapy

1. Call the toll free # for customer service on your insurance card. Select the option that will allow you to speak with a customer service provider, not an automated system.
2. Ask the customer service provider to quote your physical therapy benefits in general. These are frequently termed "rehabilitation benefits."
3. Be sure the customer service provider understands you are seeing a non-preferred provider/out- of-network provider.

What this information means:

- A deductible must be satisfied before the insurance company will pay for therapy treatment. Submit all superbills received from Caron Physical Therapy, LLC to your insurance company to help reach your deductible amount.
- If you have an office visit co-pay the insurance company will subtract that amount from the percentage they will pay. This will affect the amount of reimbursement you will receive.
- The reimbursement percentage will be based on your insurance company's established "reasonable and customary/fair price" for the service codes rendered. This price will not necessarily match the charges billed; some may be less, some may be more.
- If your policy requires a prescription or referral from your primary care provider (PCP) you must obtain one to send in with the claim. This is usually not difficult to obtain if your PCP sent you to a specialist for help with your condition. If the referral from a MD or specialist is all you need, make sure to have a copy to include with your claim. Each time you receive an updated referral you'll need to include it with the claim. The referral should be dated within 30 days of the PT evaluation date.

- If your policy requires pre-authorization or a referral on file and the insurance company doesn't have one listed yet, you'll need to call the referral coordinator at your PCP's office. Ask them to file a referral for your physical therapy treatment that is dated to cover your first physical therapy visit. Be aware that referrals and pre-authorizations have an expiration date and some set a visit limit. If you are approaching the expiration date or visit limit you'll need the referral coordinator to submit a request for more treatment.
